## The 'Reappraised' Checklist for Evaluation of Publication Integrity

---

Not all items will be applicable to every publication, and other questions might be relevant for individual categories.<sup>[1]</sup>

### R — Research governance

- Are the locations where the research took place specified, and is this information plausible?
- Is a funding source reported?
- Has the study been registered?
- Are details such as dates and study methods in the publication consistent with those in the registration documents?

### E — Ethics

- Is there evidence that the work has been approved by a specific, recognized committee?
- Are there any concerns about unethical practice?

### A — Authorship

- Do all authors meet criteria for authorship?
- Are contributorship statements present?
- Are contributorship statements complete?
- Is authorship of related papers consistent?
- Can co-authors attest to the reliability of the paper?
