

Report on Supply Chain Compliance Volume 3, Number 9. April 30, 2020 GE under contract to produce ventilators

By Sascha Matuszak

The United States Department of Health and Human Services (HHS) announced a contract with General Electric^[1] for 50,000 ventilators to be produced by July 13. This contract, rated under the Defense Production Act, adds to the total expected ventilators to be produced or acquired by HHS: 41,000 by the end of May and 187,000 by the end of the year.
