NSF Seeks Comments on Draft Revised PAPPG

The National Science Foundation (NSF) will be accepting comments on a revised version of its Proposal & Award Policies & Procedures Guide (PAPPG) expected to be finalized sometime next year. “To facilitate review, revised text has been highlighted in yellow throughout the document to identify significant changes. A brief comment explanation of the change also is provided,” the agency said in a Dec. 14 *Federal Register* notice. In an email to stakeholders, NSF Policy Head Jean Feldman said the draft incorporates “the revised [2 C.F.R. § 200]: Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award that was effective November 12, 2020,” noting that “we have not highlighted the revised references throughout the document.” Feldman also said NSF award conditions currently apply “if there is a discrepancy” between them and the revised 2 C.F.R. § 200 .

The actual draft PAPPG was not included in the *Federal Register* announcement but is available for download from the policy office website. The comment deadline is close-of-business Feb. 12. In her email, Feldman also noted the posting of an updated FAQ about current and pending support requirements in effect now. It appears the document has one new question: #17. It addresses whether a “subawardee on a proposal that was submitted by a prime organization to NSF” should list “the total amount requested for our subaward” or “the total award amount for the overall proposal.” The answer is to list “the award amount requested or received by the subawardee organization.”
