

Compliance Today – June 2018 Measuring and mitigating healthcare associated infections

by Sharon Parsley, JD, MBA, CHC, CHRC

Sharon Parsley (sparsley@youcompli.com or sharonparsley@q-a-g.com) is Director of Content Development for youCompli and President & Managing Director of Quest Advisory Group, LLC in Ocala, FL.

The most recent CMS Quality Strategy report (QS report) articulates a vision to “optimize health outcomes by improving quality and transforming the health care system.”^[1] To achieve that vision, CMS outlines a six-pronged set of objectives. It should come as no surprise that the first of those objectives is to “make care safer by reducing harm caused in the delivery of care.”^[2]
