

Report on Supply Chain Compliance Volume 3, Number 18. September 17, 2020 Chinese tax software contains malware

By Sascha Matuszak

In June of 2020, Trustwave SpiderLabs, a cybersecurity firm, announced it had [found malware on tax software](#)^[1] downloaded by a client. The malware was embedded in software that foreign companies are required to use in order to do business in China. The software is produced by the Golden Tax Department of Aisino Corporation.
